LENIN PLOTS JAP-AMERICA SPLIT, VIEW IN GERMANY

Bolshevist Chief Quoted As Attempting To Create Discord

SEE CAMOUFLAGE

Recent Concessions Are Called Blind To Enlist Support

(*Reuter's Service*)

Berlin, Dec. 7.—The object of Bolshevist concessions, instanced recently in the case of those granted to Mr. Vanderlip, are indicated in a speech made in Moscow by Lenin, and reproduced in the Freiheit.

Lenin is alleged to have stated that the bourgeois countries had been forced to cease their warfare against Russia, who was at present able to exist amid these bourgeois countries.

"In making concessions to America we are making the relations between Japan and America more acute, and we shall exploit the situation, while by signing concessions we win a moral and material victory over the bourgeois countries, which, instead of fighting us, will be compelled to strengthen our position."

Argentine Leader Leaves Conference And Goes To Paris

South American To Obtain Harding's Views On Nations' Association

(*Reuter's Service*)

Geneva, December 8.—Senor Pueyrredon, head of the Argentine delegation, withdrew from the League of Nations, and left here on Monday evening for Paris.

Geneva, December 8.—The proposed establishment of (1) financial and economic (2) transit and (3) health organisations by the League of Nations was debated with considerable warmth by the Assembly today.

Strong opposition to the proposal was voiced by Mr. Rowell (Canada) who argued that article 23 of the Covenant, (pledging the League to humanitarian effort in matters of labor conditions, treatment of natives, prostitution, drug traffic, trade in arms and freedom of communications,) stipulated that such action must be based on previous international conventions, and further that it was a dangerous and costly expedient to commit the League to annual conferences on economic and transit questions, (an international health organisation already exists) before consulting all the Great Powers.

M. Hanotaux (France) answering these criticisms emphasised the necessity for rebuilding the pre-war international organisation dealing with such matters as railways, ports and tariffs. M. Ador supported this contention. The discussion was finally adjourned.

The special commission for the League's anti-typhus campaign will consist of the following: Sir George Foster (Canada) Jonkheer London (Holland) and Senor Restrepo (Colombia.)

New York, December 7.—The Geneva correspondent of the Associated Press telegraphs: "Senor Pueyrredon, the chief Argentine delegate to the League of Nations, has left for Paris to consult with Senator McCormick, of Chicago, regarding Senator Harding's views on an Association of Nations to replace the League of Nations. Senor Pueyrredon's plan is that Argentina and the United States should be the leaders of the Association."

Italian Warships Join D'Annunzio In Fiume Republic

(*Reuter's Service*)

Rome, Dec. 8.—Two Italian torpedo-boats have deserted to d'Annunzio, according to a guarded communique, which says that two torpedo-boats of the Upper Adriatic Squadron have anchored in the port of Fiume, in "an irregular manner. The commanding officers were apparently taken by surprise, and were unable to assert themselves."

New York, Dec. 8.—According to an Associated Press message from Trieste, the Italian destroyer Bronzitti, one of the vessels blockading Fiume, has joined d'Annunzio's forces.

Tuchun Demands $500,000 From Chambers Of Commerce In Hu-Han Cities

(*Staff Wire To* THE CHINA PRESS)

Hankow, Dec. 9.—Wild rumors are current that the soldiers in the province who have not been paid for the last several months will mutiny shortly. Looting is feared. People here are already panic-stricken. They began removing their belongings last night to the foreign concessions.

Tuchun Wang Chuan-yuan has demanded the sum of $500,000 from the Chambers of Commerce of Wuchang and Hankow in order to meet the crisis and pay off the troops. It is doubtful however that the chambers will be able to meet the demand.

More Battleships Demand Made By British Admiralty

(*Reuter's Service*)

London, Dec. 7.—"Battleships or no battleships in the forthcoming naval program?" is becoming a burning question, owing to reported differences between the Admiralty and Cabinet. The former decided to ask for a program of battleships, on the ground that both the United States and Japan are now building capital ships on a large scale.

The Daily Mail says in this connection: "We must have a policy that will secure our old position at sea, but the question has yet to be decided whether the construction of capital ships is the right policy. The point cannot be decided until the facts of Jutland are completely known."

The Daily Mail points out that within a few years the United States will have at least 12, and Japan 16, ships of a post-Jutland type.

Balance Of Trade Grows In Argentine

(*Reuter's Service*)

Buenos Aires, Oct. 12. (By Mail)—Official figures just published show that for 1919 the trade balance in favor of Argentina was $375,192,964, gold, as compared with $300,863,736 in 1918. The total imports for 1919 were $1,030,165,258, and for 1918, $801,466,488. During 1919 exports of live stock and derived products were valued at $548,730,950. Farm products exported amounted to $438,435,276.

RACE CLUB VOTES $5,000 TO FAMINE RELIEF SOCIETY

Appeal By Women's Organisation For Clothing Is Answered

LOCAL COMMITTEE ACTS

International Relief Body Answers Critics; Allottments Made

The response to the appeal for old clothing made by the Women's Famine Relief Society, has been better during the past week, and on Mondoy five cases were packed and sent off to the International Famine Relief Committee at Hankow, consigned to the China Inland Mission. It is hoped to be able to pack at Messrs. Maitland and Co's Auction Room, which they have kindly lent for the purpose, on Mondays and Fridays.

New clothing is being made by the seven working parties already organised, and in addition to those mentioned last week, Mrs. Cranston, 1B, Jinkee Road, has a working party for the making of baby clothes. The Chinese ladies of the Presbyterian Church Mission have started making padded garments.

Those receiving for old clothing are; Mrs. G. E. Tucker, 5, Peking Road; Mrs. A. J. Welch, 5 Ferry Road; Mrs. Burton Sayer, 392, Great Western Road; Mrs. H. E. Shadgett, 27 Route Doumer; Mrs. D. MacGillivray, Canadian Presbyterian Mission, 143, North Szechuen Road; where anything in the way of men's, women's or children's clothing may be sent. Rugs, old blankets, woollen garments and old furs are especially welcome, as the Northern cold is intense.

RACE CLUB VOTES $5,000

Cases of old clothing have been received for forwarding, from Soochow.

Money has been sent to the Canadian Mission at Changteho, Honan, to start Chinese women working at remodelling the old clothing sent. It is hoped to be able to continue this work, so that the women will be in a position to earn regular wage to enable them to buy food.

Generous gifts of material have been received from Mr. and Mrs. E. C. Pearce and Mrs. E. D. Goodfellow.

Messrs. Singer & Co. have kindly lent 4 machines for a working party.

Movement On Foot To Have Constantine Abdicate In Prince's Favor

(*French Wireless Service*)

Paris, Dec. 8.—Although the Greek plebiscite resulted in a huge majority in favor of the return of ex-King Constantine, it is reported from Athens that in view of the embarrassing position in which the attitude of the Allies has placed the Government, steps have been taken to persuade Constantine to abdicate in favor of his son.

PRINCE IN TURKEY

It is announced that the Crown Prince of Greece is at Constantinople awaiting the arrival of the Greek torpedo boat which will convey him to the Piraeus. The Greeks at Constantinople have made a demonstration against the return of Constantine.

Finally, the British Minister at Athens has handed to the Greek Government a note, announcing the Allies' cancellation of their last loan of four hundred million drachmas.

KING NEEDED, BELIEF

Athens, Dec. 8.—If anarchy is to be avoided in Greece ex-King Constantine must return, if only for a time. He is the idol of the people, and nothing will satisfy them but a popular welcome to the monarchy. The solution seems to be his subsequent abdication in favor of the Crown Prince.

The nation is thoroughly Anglophile, but this feeling is bound to change in the event of continued failure to comprehend the popular mentality.

RULER DENIES KAISER

(*Special Cable*)

Lucerne, Dec. 8.—Ex-King Constantine of Greece, denied that he is especially pro-German or fond of the Kaiser. He said:

"I had to telegraph him my sympathy when he was exiled in order to keep him quiet."

Constantine is impatient to return to Athens, saying he is ready and only waiting for the invitation. He said he could not understand why he was not invited.

Athens, Dec. 7.—Officials of the Government have decided to postpone the return of Constantine to Greece, apparently continuing their "wait and see" policy.

FRENCH COUNCIL VOTES EXTENSION TO CIE FRANCAISE

Properties Not To Be Taken Over As Threatened In Ultimatum

MINISTRY SENDS CABLE

Word Special Representative Is Coming From Paris To Take Up Issue

The French Tramway, Electricity and Water Company emerges as victor over the Municipal Council of the French Concession in the first period of the controversy begun three months ago when the Council launched a movement to force the company to make extensions and improvements held to be needed acutely. This was made evident at yesterday's meeting of the Council when it was voted to take no action against the company at this time but to grant an extension of three months for it to comply with the demands that have been made.

The Company operates street cars and supplies electric current and water in the French Concession under terms of a 75-year franchise that was granted in 1908 and the fight on the corporation was opened when the Municipal Council presented a list of demands and issued an ultimatum.

DEMANDS MADE

On the ground that the company had not complied with the terms of the monopoly granted to it in its franchise, the Council required first that the administrative offices of the company, now in Paris, be transferred to Shanghai and also that extensions of the entire public service enterprise—enlarged street-car service and erection of an electrical plant by the company to supply power now purchased from the International Settlement—be undertaken at once.

In its ultimatum the Municipal Council asserted that if these demands were not complied with within a fixed period then the Council itself would take over control of the various public utilities involved and make the needed changes and improvements. The period of this ultimatum expired yesterday.

ANSWER CALLED VAGUE

Following announcement of the Council's purpose the Company let it be known that it intended to carry out certain improvements and extensions. It was charged by those active in the controversy that the company's statement was entirely vague and failed to set forth what specific improvements were contemplated. The Company at that time and has not since given any indication of a willingness to establish administrative offices in Shanghai.

It has been known that considerable correspondence, cabled and written, has taken place between Municipal and Company officials here with Government officers in France and with the Company's head office at Paris. What has been declared to be an important factor in the situation is the fact that M. Reau, the acting French Consul-General and ex-officio member of the Municipal Council, is to retire shortly, as Consul General H. Wilden is returning to take up again the duties of the Consulate.

MINISTRY'S MESSAGE

One of the recent messages received from Paris was a cable addressed to M. Reau from the Minister of Foreign Affairs conveying the information that the Company has agreed to send a special representative to Shanghai to take up the whole question with the Municipal Council. Referring to this message and intimating that delayed action in the matter might be held advisable, M. Reau told of receiving this message at yesterday's meeting of the Council.

The cable sets forth that the Company's representative cannot be sent to Shanghai immediately and this has given rise to the belief that it will not send the same representative who came last year.

COUNCIL IS UNIT

It was understood that the action to extend the period of the ultimatum for three months, or until March 10, that the Council took yesterday was brought about chiefly in view of an opinion given by Mr. P. Premel, legal advisor to the Municipal Council, who held that effective action along lines that had been planned could not lawfully be taken at this time against the Company. While the Council has been a unit in the fight on the tramway company, its full membership consisting now of Messrs. R. Fano, F. X. Dard, A. Chapeau, W. J. N. Dyer and W. A. C. Platt, accepted the view of the legal officer and all voted for the three-months' extension of time.

Permanent Station Of Troops In Hungchun Is Planned By Tokio

Privy Council Decides To Refrain From Withdrawing Forces Under Pretext That Residents There Are Not Safe From Korean Harm

(*China Press Correspondence*)

Peking, Dec. 7.—The following is adduced as evidence that the Japanese Government entertains the idea of having its troops permanently stationed in Chinese territory.

The Japanese authorities have installed telegraphic instruments as well as telephones in Tung Ling, Wang Ching, Ho Lung, and other places. Camps have been set up for use by the troops in Ho Lung. Military maneuvers are taking place in Hungchun. The local inhabitants have appealed to the Taoyin of Yen Chi but without avail.

The Japanese Government has decided, after a three hour conference, to adopt the policy proposed by the privy council, that unless and until the Chinese local authorities shall afford guarantee that adequate protection be afforded all Japanese residents in the districts involved in the Hungchun issue, no withdrawal of troops should prove expedient, especially under the present circumstances when lawless Korean partisans and bandits are still doing great harm to the Japanese residents. The Chinese Government will have to grant an adequate compensation towards the damages which the Japanese Consulate suffered during the crisis.

The Central Chinese Government is apprised by the Taoyin of Yen Chi of the fact that certain additional Japanese troops were recently sent from Korea to Chinese soil under some pretext.

It is evident that the Japanese Government has so far cherished no intention to comply with the request of the Chinese Government that her troops be withdrawn from Chinese soil.

(*Reuter's Pacific Service*)

Tokio, Dec. 7.—A despatch from Hungchun, dated December 4, states that the armed organisations of Korean malcontents in the Hungchun and Chientao districts have now been broken up. According to Japanese military officials there though it has not yet been determined whether they have been sufficiently scattered and disorganised to prevent their reconcentration.

TWO CLASHES

As a consequence, there have been only two clashes in the Chientao district recently. One occurred in the vicinity of Santaokou and Lutaokou, forty-five miles southwest of Lungtsungsun; the other in a thick forest in the Chunsan district, forty-five miles west of Muchanhsien. Both lasted several days in severe cold, the Koreans fighting strenuously from their places of concealment in the forest.

The Japanese lost a number of men in these operations, and they were forced to cut an ammunition road through the woods. Among the arms and supplies which they captured were three machine-guns and five hundred infantry rifles. The latter are of Russian manufacture, while the origin of the machine-guns has been ascertained by the numbers and marks upon them as follows: one is a Lewis type, made by the Savage Arms Company of Utica, N. Y., and similar to those manufactured for the British army. The second is a Lewis, 1914 Birmingham model, and bears a French inscription, denoting Belgian ownership. The third is a 1914 Browning marked, "belonging to Great Britain" in Russia.

KOREANS BUY ARMS

According to documents which were seized, the Koreans have purchased a total of 3,500 rifles, 55 machine-guns and 1,500 grenades from the Bolsheviki, and have also raised a war fund of half a million yen.

Reports received at the headquarters of the Canadian Presbyterian Mission show that over 130 houses, including some church and school buildings, have been burned in the course of punitive operations, while about ninety Koreans have been executed. The Japanese leaders explain that they have definite proof that these buildings were used for revolutionary purposes.

The Japanese burned a non-Christian village near Paikunpiang, where seventy villagers were shot. The Japanese report

CANTON FORMS NEW CABINET; NORTH ACCUSED

South Charges Peking With Militarism; Foreign Loans Cause Of Protest

The Southern Military Government has been formally organised. The personnel of the Cabinet is as follows:

Dr. Sun Yat-sen, Interior; Mr. Tang Shao-yi, Finance; General Tang Chi-yao, Communications; General Chen Chuin-min, War; Mr. George Hsu Chien, Justice; Dr. Wu Ting-fang, Foreign Affairs and General Li Lieh-chun, Chief of the General Staff.

Before the arrival of Generals Tang Chi-yao and Li Lieh-chun, Generals Wang Pei-chun and Chiang Tseng-kwei will act in their places respectively.

The government in Canton has issued a declaration, accusing the North of having committed three grave errors in the administration of the country. They are:

1.—Usurping the administrative power by means of military forces.

2.—Attempting to secure a loan from the new Consortium under the pretext that the money would be used for famine relief.

3.—Declaring a unification of the country when the nation is still divided.

Dr. Wu has telegraphically communicated with the Peking Legations, protesting against the granting of loans to Peking Government.

COMMONS PLANS PROTECTIVE ACT FOR DYE TRADE

Sir Robert Horne Urges Passage Of Bill To Keep Nation's Pledge

(*French Wireless Service*)

London, Dec. 8.—The House of Commons passed the Dye-stuffs Bill on its second reading, a motion for its rejection being defeated by 277 votes to 72. The minority was largely made up of free traders and representatives of the textile interests.

London, Dec. 7.—In moving the second reading of the Dye-stuffs Bill, in the House of Commons, Sir Robert Horne said that it prohibited the import, except by license, of synthetic and organic dyes, colors and coloring matter, and intermediate organic dyes.

He emphasised the fact that the Government was pledged to protect the dye industry against German competition. The bill, he said, was necessary to prevent the British dye industry from being killed, leaving Great Britain again dependent on outside supplies for vital industries, and imperilling her very existence in war time. He announced that the Government intended to make a bill dealing with other key industries the first bill of the next session.

Mr. Asquith supported the bill. He declared that the question of free trade or protection did not arise. His Government, he declared further, had been right in granting a subsidy, but it was necessary consequently now to ensure that there should not be unlimited private profit.

Certain surpluses, he said, should be devoted to research. The history of the British dye industry was a humiliating chapter. He emphasised the necessity to the textile industry of a superior quality of dyes. The Germans, ought not to continue to have a monopoly in this regard, but on the other hand, so long as we could not produce the required quality the manufacturers ought to have the freest access to foreign dyes.

NO REPUBLIC ULTIMATUM OF BRITISH TO IRELAND

Reply To Moderates Is Being Framed At London

DENY AMNESTY

Cessation Of Murder Another Demand To Be Made

(*Reuter's Service*)

London, Dec. 8.—As regards the prospects of an Irish truce, it is stated on the highest authority that, if it is agreed that Father O'Flannagan's message to Mr. Lloyd George represents the full force of Sinn Fein moderate opinion, the Government reply will embody the following principles: No amnesty; no republic, and the cessation of the campaign of outrage and murder.

It is believed in well-informed quarters that the repudiation of Father O'Flannagan's message is due to Sinn Fein fugitives from justice who desire an amnesty.

London, Dec. 8.—In presenting medals for gallantry to members of the Royal Irish Constabulary at Dublin, Lord French eulogised the skill and zeal of the force. He said there were many indications that their work was beginning to take effect. The senseless and inhuman episodes at Dublin and the wanton destruction wrought at Liverpool were sure signs of a malevolent malice which was the certain forerunner of defeat. Lord French assured the police that their efforts would end in saving the country from the dominion of savages.

Mohammedans May Be Aroused By Ma

(*Reuter's Pacific Service*)

Peking, Dec. 9.—Telegrams from Kansu state that trouble is brewing between Ma Fu-hsiang, the Commissioner for Ninghsiang, and General Lu Hung-tao, one of Tuchun Chang Kuang-chien's strongest supporters.

According to one telegram, Ma Fu-hsiang is likely to cause a Mohammedan uprising unless he is appointed Tuchun in place of the Anfuite Chang Kuang-chien, while others say that if Ma Fu-hsiang is made Tuchun he will undoubtedly consolidate the Mohammedans and eventually declare their independence.

Ma Fu-hsiang is represented as disappointed at not having received any recompense for his having joined the "Eight Tuchuns League" prior to the downfall of the Anfuites.

Anderson and Co., who is returning home with his wife and child.

Turning Point Is Reached In War Business Crisis

(Reuter's Service)

Washington, Dec. 6.—The close of the business year of 1920 is described by the Federal Reserve Board in a statement as "the turning point in the transition from war-produced conditions to a normal economic basis in international industrial life.

The statement, which reviews the economic and financial situation which confronted the nation during the war, treats of the present conditions in a generally optimistic manner, declaring that the difficulty of transition will not be much further aggravated, and also that owing to the nation's strong banking structure, the normal situation will be restored with far less than the distress usually attendant on periods of readjustment.

The slowing down of the export trade of the United States is attributed in some measure to the exchange situation, which, it asserts, has steadily deteriorated. American exports seem to have been closely conditional upon the volume of imports, and the inference seems to be warranted that there should be a large movement of goods into the United States as a result of the extensive credits granted to foreign countries.

The tendency of the retail trade is downward.

London, Dec. 6.—Owing to the crisis in the cotton industry, the cotton-spinning mills in Lancashire have begun running half-time, and 100,000 operatives are working only three days weekly.

Chinese Bankers Want Explanation Of Consortium

(Reuter's Pacific Service)

Peking, December 8.—It is stated officially that public opinion regarding the terms put forward by the Consortium is full of grave doubt, and opposed to foreign borrowing. The Chinese banks at various places have therefore formed their own group by an arrangement effected at Shanghai on December 5.

It is asserted that a large sum is available for investment in industrial enterprises, with the stipulations that the money is to be used as specified, and that the security shall be solid.

The Government has agreed that the banks shall supervise the disposition of the funds, and to publish full details of all enterprises thus financed. The Government also declares that Provincial self-government will be enforced during 1921, after which the central and provisional financial administrations will be kept separate.

MYSTERY CASE REMANDED

The three hawkers who are being detained by the police in connection with the mysterious death of the Chinese found near Tattsihar Road with his throat cut were again before the Mixed Court yesterday.

Detective Sergeant Gabbot told the court that some of the dead man's clothes had been found in the house in which the three lived and that the police also believed they had found human blood stains there, which latter the Municipal laboratory is investigating. He asked a further remand of two weeks, which was granted.

Government Action In Finance Asked By Bankers Here

Three Demands Made On Peking For Improvement By First National Conference

The declaration by Peking of a definite financial policy, the proper management of the national debts and the reformation of China's currency were demanded in a telegram sent to the Central Government by the first convention of Chinese bankers, which concluded here yesterday after a four-day session at the local Chinese Bankers' Association.

A resolution was unanimously adopted to the effect that the question of the New Consortium shall be under further consideration by a special committee of seven members elected out of the delegates attending the convention.

Mr. Zan Chou-soo, chairman of the Shanghai Bankers Association who was unanimously elected the chairman of the convention, presided at the meetings.

The Bankers' Associations of Peking, Tientsin, Tsinanfu, Hankow, Hangchow, Pengpu and Shanghai were represented.

Northwest Banks Driven To Wall By Strike Of Farmers

(Reuter's Service)

London, Dec. 8.—The New York correspondent of the Daily Mail telegraphs as follows: "The collapse of the spectacular war-time prices for American farm produce has resulted in an unprecedented situation in North Dakota, where 23 banks have been forced to close, owing to the refusal of the farmers to sell their wheat in order to liquidate their loans.

"The basic facts of the case are that the United States has produced 2,000,000 more bales of cotton and 300,000,000 more bales of wheat than it can consume. The farmers of North Dakota have struck, vowing that they will not sell their wheat until it reaches 12s. 6d. per bushel.

"The movement is spreading through the West. Seven banks have suspended operations in Oklahoma, and there have been sporadic failures in Iowa and Montana."

Apology To Mr. Ziar Given By Mr. Musso

The dispute between Mr. F. P. Musso and Mr. Y. S. Ziar arising out of an alleged assault on Mr. Ziar was amicably settled when Mr. Musso, in the presence of the Italian Consul-General, tendered an apology to Mr. Ziar.

It will be remembered that following the alleged assault, the police made an application for a criminal summons against Mr. Musso and this was refused. Mr. Ziar was advised to take legal action against Mr. Musso, when the Italian Consulate mediated and suggested the amicable settlement.

Postal Savings Plan Makes Good Progress

Report For First Six Months Shows Encouraging Amount Of Business

The idea of postal savings is being taken up by the Chinese with encouraging interest, according to a report just issued by the Directorate General of Posts.

Post Office Savings Banks were opened in eleven of the district head offices on July 1, 1919 and were extended to 69 first and second class offices and sub-offices in these eleven districts on October 15 of that year. During the first six months' period, reviewed in the report, deposits totaled $154,051, withdrawals totaling $46,535, leaving deposits in excess of withdrawals of $107,516, exclusive of interest accumulated. Transactions for the six months totaled 6,860, averaging $29.

In the Shanghai postal district 203 pass books were outstanding. There were 251 accounts opened and depositors' credits outstanding equaled $9,126.

The report is contained in a 30-page booklet giving a short history of the postal savings system as introduced in China and complete and comprehensive tables of statistics showing its present scope and workings up to December 31, 1919.

Wedding

HARRIS-WILLIAMS

Mr. William T. Harris of Philadelphia, here as a member of a party making a trip around the world, and Miss Ethel H. G. Williams, of Soochow, were married yesterday afternoon at St. John's University Chapel by the Right Reverend F. R. Graves, D. D.

Miss Williams, who is a Philadelphia girl, came to Shanghai on the steamer Venezuela arriving here October 14 and after stopping for a few days at St. Elizabeth's Hospital, went to Soochow University Language School to study Chinese preparatory to taking up her work as a nurse.

Mr. Harris came on the Venezuela to Yokohama with a Raymond Whitcomb tourist party and arrived in Shanghai a week ago.

At the wedding yesterday Mr. Carl Erdman, captain of the 1920 Princeton University track team and a member of the Raymond-Whitcomb party, acted as best man. Miss Frances Berg, who came on the Venezuela to join the American Church Mission as a social service worker, was the bridesmaid. Miss Berg was studying with Miss Williams at Soochow.

Mr. and Mrs. Harris will leave here on the Colombia tomorrow for Manila, Mrs. Harris to accompany her husband on the trip around the world.

Surtax On Foreign Imports To Begin On January 1, 1921

(China Press *Correspondence*)

Peking, Dec. 7.—As the majority of the Foreign Ministers in the Capital have expressed the general approval of the policy which the Chinese Government has decided to follow in levying of a surcharge on all foreign goods imported to this country, the Chinese Government has now taken steps to inform the Inspector-General of Customs to the effect that the surcharge in question will be actually enforced with effect from January 1, 1921. This surcharge will remain effective for one year.

COMMITTEE EXPLAINS

In view of the uncalled for criticisms of the International Committee it is interesting to understand its methods, the character of its agents and correspondents, and the nature of the work being done. Below are a series of recommendations, submitted by the Investigation Committee after careful inquiry into the merits of the various proposals. These recommendations were placed before the Administration Council and duly sanctioned, whereafter it is the business of the joint treasurers to make the necessary payments.

These will amount altogether to over $70,000 in cash from the funds of the Committee. In addition, the Committee is making special recommendations to the Government for the provision of money and grain in certain districts, and asking for investigation of a case of misrepresentation by a local magistrate, and for punishment of the guilty. The fact, that a thousand people have already died of starvation in one block of 18 villages, should be enough to convince the most sceptical that the famine is very present and terrible calamity.

MAKE ALLOTMENTS

1. In regard to the requests of Rev. P. M. Scott for the districts of Yung Ching, An Ping and Chi Chow

a. That 2,000 suits of clothing be sent to Yung Ching and 200 to Chi Chow

b. That in the district of Yung Ching, where the magistrate has reported no famine conditions in order to prevent remission of taxes, where as a third of the district including about 100 villages is badly affected, we bring the facts before the government, request investigation and punishment of the guilty parties and that we ask for an allotment of money and grain for that district to be given to the International Committee for distribution through the Anglican Mission.

c. That in An Ping Hsien where there is a list of 65,000 people carefully selected as in direct want and where there is now provision for the caring for 10,000 that we ask the government for the allotment of money and grain to be administered by the Anglican Mission.

2. There has been received from the Paotingfu International Famine Relief Committee a letter giving details of their revised plans for the use of the $41,000 as set aside for their use, a grand total of 44 centers all to be carried on for five months by the $41,400, including the $4,000 already given through Father Montaigne.

We recommend the acceptance of the plans and the payment of the money in five monthly instalments.

OTHER DISTRICTS

3. Apart from the fields covered by the Paotingfu, Chantefu Committee and the North China Famine Relief Committee there are 14 counties large sections of which are very heavily hit. In one county of Ning Ching a study of 18 villages gives the names of 1,000 deaths from starvation. We recommend the immediate uniting of the Roman Catholics, Protestants and gentry in two committees, one centering about Chen Ting, and one about Chao Hsien and that we set aside $30,000 for such section to spent upon approval of plans and organisation and that we advance to Father Baroudi $10,000 to be used in entarting immediate relief measures and in supporting the Jen Tse Tang of the Sisters of Charity at Cheng Ting Fu.

MISSIONARY ASSOCIATION WIRES FOREIGN ENVOY

The Shanghai Missionary Association at its regular monthly meeting, was addressed by Bishop J. W. Lambuth, who gave a graphic account of conditions in the provinces of Shantung and Chihli. At the close of the meeting the Executive Officers were instructed to dispatch the following telegram to the British and American Ministers in Peking, which was sent off yesterday:

"Representative meeting Shanghai Missionary Association respectfully requests your good offices presenting to Chinese Government that early report Famine Relief surtaxes received together with some intimation how and when used will stimulate securing funds other quarters we further request you bring to attention Government that magnitude of task cannot be met in entirety by private enterprises urge such funds as available be put immediate use."

PEKING TO HOLD FAMINE TAG DAY

(China Press Correspondence)

Peking, December 7.—Saturday, December 18, will be known in Peking as Tag Day for the famine sufferers. It will be carried out through the co-operation of the students of the various middle-schools and colleges of Peking, working with the Peking Christian Student Work Union, which organisation has been requested by the International Famine Relief Committee to employ this method of raising funds for relief work.

On every hand the committee in charge is meeting with a generous response, and a number of Presidents of important colleges already have stated that they will be glad to call off classes for the day in order to give their entire student-body and faculty a chance to more completely participate in the work of the day. While it is too early to state finally just how many students will volunteer to serve as solicitors, the number will probably be well over 5,000.

STUDENTS TO AID

Both men and women students are to participate. The men students will largely have charge of the work on the main street while the girl students will carry on a house to house canvass. It is hoped that everyone in Peking, no matter how rich or how poor, will make some contribution. The main aim of the Tag Day is not so much to secure large gifts, but rather to secure a great number of small gifts. Coppers will be welcome, although, care has been taken to see that the slit in the earthen jug, in which givers are to deposit their money, is large enough to accommodate silver dollars quite comfortably.

Each student solicitor will have one of these jugs which are modeled somewhat after the ordinary savings bank of the Chinese boy. These jugs are to be made of clay at a cost of a little over a copper a piece. The entire cost of their construction has been covered by an individual subscription made by one who is anxious to see the Tag Day a success.

NO WASTE OF MONEY

It is expected that all other expenses which may be incurred in connection with the enterprise will in like manner be covered by subscriptions, so that every copper given on Tag Day will go directly to the famine sufferers. The Tags are to be printed by the Government Bureau of Printing and Engraving and will be attractive in appearance carrying in the center a small Chinese flag.

If the Tag Day proves a success in Peking, plans have been made through the National Student Department of the Y.M.C.A. for promoting similar efforts in the other student centers of China. It is expected that through this series of Tag Days considerable funds may be secured for the people who so desperately need aid right now. It is also hoped that through these Tag Days the great need of the famine area may be brought strikingly to the attention of the people in all parts of China. The students of China are not content to see their fellow-countrymen starve to death, without first having done all in their power to help save them.

MILTON

ANTISEPTIC

Keeps Food Fresh and Pure for many days.

No danger of the food becoming tainted or going bad—no danger from flies—no danger of ptomaine poisoning.

Miltonise your Food

Meat, Poultry, Fish, Vegetables—these can all be Miltonised. Milton not only preserves fresh food in all weathers, but also removes danger of impurities which may be there before purchasing or through the neglect of your servants. Food which is Miltonised will not go bad, even when exposed to risk of contamination by flies and other insects. If flies do settle on it, which is unusual, they cannot harm it.

How to use Milton.—Just wash or spray Meat, Poultry, Fish, etc., immediately after buying, with water to which Milton has been added in proportion of a tablesponful to a pint. Soak vegetables before cooking in a similar solution. Milton does not add the slightest taste or smell—only freshens up the natural flavour of the food and makes it pure and wholesome.

Does 101 Things

It seems unbelievable that a clear water-white fluid, non-poisonous and non-irritant, can possess power to effectively perform the 101 household services which Milton renders. Yet no use is ever claimed for Milton which has not first been tested and proved in our own laboratories.

The hundred and one uses are fully described in the Booklet attached to each bottle. Look for this Booklet when buying. Make sure you get it.

Obtainable at Chemists or Grocers.

What Happened to the Meat?

At a Canadian Military Camp a joint of fresh meat was treated with Milton, and then hung in the open near the horses' quarters. The weather was warm (it was June) and for three whole days the meat hung there exposed to the sun and to swarms of flies and other insects. It was then taken down, washed and examined by the medical staff, who reported it perfectly pure and wholesome. The meat was eaten that day for dinner, and the verdict was "delicious." This experiment was undertaken to prove the efficiency of Milton.

REVOLUTION AND CHANGE

A sign of the times.

In these days of sudden and drastic changes in the affairs of men and nations, a spirit of restlessness and inquietude seems to have swept over the whole earth and it is only the soundest of the old institutions which have survived the constant craze for change.

Particularly does this hold good where medicines are concerned, and, amongst the innumerable preparations now before the public, people are apt to become bewildered pondering over the remarkable claims made on behalf of many of these wonderful panaceas for all human ills. If *you* are suffering from some form of INDIGESTION, BOWEL or STOMACH TROUBLE would it not be wise to pin your faith to a medicine which has been almost universally used for these complaints for over 70 years, and which still occupies the foremost place as THE WORLD'S MEDICINE. This remedy is BEECHAM'S PILLS, universally known, used, and appreciated as *the* specific for CONSTIPATION, DIGESTIVE DISORDERS, KIDNEY AND LIVER TROUBLES.

Sold by all Chemists, or direct from THOMAS BEECHAM, 7, Kiangse Road, Shanghai, price 60 cents per box or two boxes for $1.00 Mex.

that these gave false information regarding the passage of Korean forces, with the result that the Japanese were ambushed when they entered the forest. This "traitorous attitude" on the part of the Koreans is compared with the accurate information given by the residents of another Christian village, who notified the Japanese that a band of Koreans was waiting in a nearby forest, hoping to effect another surprise.

Among the Koreans executed was the secretary of the Paikunpiang Presbyterian Church, who was captured and shot, along with seven others.

Yokohama Planning Seven-Story Hotel

Reported Syndicate Of Japanese Capitalists Will Build Modern Structure Soon

Yokohama is to have one of the finest hotels in the Far East if the plans of the promoters are successful. A syndicate of Japanese capitalists has organised a company capitalised at Yen 5,000,000 for the purpose of erecting a seven-story building in Yamashita-cho, the main part of which will be a hotel.

The site has already been purchased and much of the preliminary work in connection with plans for the new building has already been accomplished. The structure will be of reinforced concrete and will contain 500 rooms. The ground floor is to be occupied by a large department store. A roof garden patterned after the Pennsylvania Hotel roof garden will be special feature. It will be glass covered and used for a sun parlor, lounging place and for dances and other entertainments.

The rooms are to be fitted with all modern conveniences, including electric fans, hot and cold water and steam heat. The plans include a theater large enough to hold Yokohama audiences.

The date for starting construction on the building is not known, but it is believed that work is to commence soon. The crowded condition of Yokohama during the tourist season last year is an incentive for the project, as it is believed that ample hotel accommodation in Yokohama will be an added inducement for tourists to make a longer stay.

The Confession

Although the basis of the photoplay "The Confession" is Roman Catholicism the picture is one that will appeal to members of all sects. The picture, in which Henry Walthal stars as the priest who refuses to break the seal of the Confessional, was produced for the first time publicly in Shanghai at the Apollo Theater last night.

The locations, particularly in the third, fourth and fifth reels, are particularly well selected.

Danish Sovereigns Arrive In France

(French Wireless Service)

Paris, December 8.—King Christian I and the Queen of Denmark arrived in Paris from England today. They were greeted at Calais by Commander de Redinger, who represented the President of the Republic; the Premier, M. Georges Leygues; the Secretary-General for Foreign Affairs, and the Danish Minister at Paris, M. Bernhoft.

King Christian responded with great affability to the expressions of welcome which were addressed to him, and remarked several times: "I am very happy to be in France; I wanted to come myself to thank you for all you have done for us."

The visit of the Danish sovereigns is not merely one of courtesy; it is also an act of gratitude and friendship. They will be received by President Millerand, will visit Verdun and Rheims, and will leave on Saturday for Italy.

WESTERN COLLEGES TO PLAY ANNUAL GAMES WITH TEAM OF EASTERN UNITED STATES

Intersectional Football Games Assured Next Year With Princeton Meeting Chicago University; Will Help To Determine Grid Title

The American in the Street is taking a greater interest in football this year than he ever has before, and his interest knows no limitations. He has been particularly interested in the games which have been played between the teams of the East and West, and some 40,000 of his friends saw Harvard best Centre College in the most spectacular intersectional game ever play.

The Man in the Street is a boxing and baseball fan, and after the manner of his species he wants to know which college has the best team in the country. The number of intersectional games, he holds, isn't what it might be, and he suggested yesterday that the Big Three ought to schedule games with some of the Conference teams of the West.

NOW PUBLIC'S GAME

His suggestion was communicated to some Harvard men at the Harvard Club, and there it was favorably received. The suggestion became the interesting subject of an informal discussion, and the Harvard men, confident in Harvard football and Bob Fisher, the coach, said that they would like to see Harvard play one of the Western Conference teams every year, in addition to meeting Center College, representing the South.

"Fine," said the Man in the Street, "but has Harvard ever tried to arrange a game with one of the Conference teams? Isn't it a bit undignified for Harvard, the aristocrat of the East, to rub elbows indiscriminately on the gridiron? Or does Harvard now realize that football is no longer the exclusive property of the colleges—that it has been confiscated by the public?"

The Man in the Street was told that Harvard did try to arrange a game for this season with one of the Conference teams last Winter, and that it was generally understood that Harvard took the initiative in the matter. The negotiations, however, developed a hitch, and nothing was accomplished.

Late last Fall Harvard wired Illinois University an invitation to visit Cambridge this year, and Illinois responded, offering to accept the invitation, provided Harvard, in turn, would visit Illinois in 1921. This Harvard did not think it could do.

WON 43 OUT OF 53

Illinois took the stand that only a home-and-home series would be fair and acceptable. It claimed that the team which makes the trip suffers a disadvantage, and that the matter of self-respect is also concerned.

The Man in the Street was acquainted with this phase of the matter. His comment was brief.

"Oh!" he said, raising his eyebrows.

Illinois, he was told, occupies the same position in the Conference that Harvard occupies in the East. Coached by Bob Zuppke, a great coach, it has lost only ten games of the fifty-three which it has played since 1913. In these games it has scored more than 900 points, and since 1913 it has won three Conference championships and tied for another.

This year it has played three Conference teams and beaten them all. It won from Iowa 13 to 7, Michigan 7 to 6 and Minnesota, 17 to 7.

"I should think," interjected the Man in the Street, "that Illinois and Harvard could play a mighty interesting game."

Princeton, he was told, has contracted to meet Chicago in a home-and-home series beginning next year.

WILL HELP WALTER CAMP

"Fine," the Man in the Street said. "Now why doesn't Harvard make the same kind of an agreement with Illinois, and if Yale wants to take on one of the other Conference teams so much the better. It will stimulate interest in football and come close to deciding the championship of at least the East and Middle West.

It will help Walter Camp with the All-American team which he persists in assembling every year.

"I have an idea," he continued, "that the West is just about as good as the East. Of course I won't say it's better, or even as good, but Notre Dame beat West Point Saturday, and Nebraska looked pretty fair against Little Rutgers Election Day, and I'd like to see this question of inter-sectional supremacy settled on the gridiron, and like the Harvard men, I'd like to see Harvard play Illinois a home-and-home series.

"Harvard," he concluded, "is apparently eager to play Illinois at Cambridge, but it doesn't seem to be as willing to play Illinois in the West, and that isn't fair."

Brothers On Many Elevens This Season

Brothers played a prominent part in the various football games this year. There were the Callahans, Mike and Tim, captains of Princeton and Yale, respectively; the Robertsons, Harry and Jim, captains of Syracuse and Dartmouth, respectively, and the Becks, one of whom led Penn State and played a whale of a game at guard, and Carl, the schoolboy wonder, who ran wild as a halfback on the West Virginia eleven. State, by the way, tried to have Carl matriculate at that institution, but he did not have enough units to meet the requirements there.

Then there were the Stein brothers. Heine was captain and star center of Pittsburgh and one of the best pivot men playing this year. Otto did good work as tackle on the Washington and Jefferson team. The two Storcks at West Point are cousins.

Nebraska and Rutgers seemed to be the only elevens able to induce a pair of brothers to attend the same institutions. Rutgers had Herbert Redmond at end and brother Mortimer in the backfield, while Nebraska had the Munns, Wade and Monte, each playing a guard position.

M'GRAW DECIDES TO DIRECT TEAM FROM THE BENCH

Jennings To Be Field Leader; Stoneham Again President Of Giants

There will be no radical changes in the management of the Giants next year. This was clearly proved at the annual meeting of the stockholders in Jersey City.

These stockholders of the National Exhibition Company, the polite title under which the New York club of the National League does official business, re-elected Charles A. Stoneham as president. The stockholders also elected the following board of directors:

Charles A. Stoneham, John J. McGraw, Francis X. McQuade, Ross F. Robertson, Horace A. Stoneham, Leo J. Bondy and Henry A. Ferguson. The last named is a new director.

If any changes are to be made in the administration of the executive and business departments of the club they will have to be effected by the directors. It is believed, however, that the administration will continue next year as in the past. John J. McGraw will continue to act as vice-president and manager; Francis X. McQuade as treasurer, and Joseph J. O'Brien as secretary.

All the statements to the contrary notwithstanding, McGraw intends to continue as team leader at least for one more year. He will never again appear in uniform on the side lines. This most important phase of the team's directions has been turned over to Hughie Jennings, who succeeds Johnny Evers as coach and assistant manager. Evers has been signed to manage the Cubs in 1921.

HERE'S AN ALL-AMERICAN

This may not sound like an all-American team, but, take it or leave it here is a mighty fair football array, as gridiron combinations go.

Erstrevaag, Pennsylvania, left end; Socklowski, Pittsburgh, left tackle; Modarelli, Columbia, left guard; Nemecsek, Ohio State, center; Schmaltz, Brown, right guard; Smimme, Union, right tackle; Hosdowich, Wesleyan, right end; Bajusz, Stevens, quarterback; Civiletto, Springfield, right halfback; Moszczenski, Columbia, left halfback; Asplundh, Swarthmore, fullback.

CHINESE "Y" FIVE IN THIRD VICTORY; GAMES ON TONIGHT

Whites Lose By Score Of 58-30; Doubleheader In League Tonight

The Chinese Y.M.C.A. basketball team, in putting over its third straight win of the season, swamped the Whites quintet of the Foreign League last night by a score of 58 to 30 and by its fast team work and excellent all-around play, proved to the big crowd of spectators that it is one of the best little outfits on the local floors.

Percy Haskell was the only bright light on the Whites and Haskell gave his Chinese opponent something to worry about. But the "Y" men were all in form and they just ran wild.

The first half saw some pretty snappy basketball but the second half saw the Chinese just roll up the points, with S. D. Lee leading the attack.

Tomorrow the Y.M.C.A. "A" quintet will meet the Greens of the Foreign League and the "B" team plays Shanghai College. Both games are to be played at the Chinese Y.M.C.A.

FOREIGN LEAGUE TONIGHT

Tonight at the Rowing Club gymnasium the Public School and Rowing Club teams are to be opponents in the first of two regularly scheduled games in the Foreign League. In the second the American School will play the Columbia Country Club. The first game is scheduled to start at 8:30 o'clock. Jackson and Hoh will officiate.

The Public School team is expected to win from the Rowing Club and the American School is figured to defeat the Columbians.

The summary of last nights game at the Y.M.C.A. follows:

Y. Regulars		Whites

PRINCETON LEADER SETS NEW RECORD IN RUN WITH YALE

New Haven, Conn., October 30. —Captain W. M. Rogers, of the Princeton cross-country team, today broke the record for the Yale course of about six miles, covering it in 33 minutes 45 seconds and winning the individual prize for the dual race. Princeton won the team race with a total of 21 points to 37 for Yale.

Captain Harvey Reed, of Yale, and A. F. Swede, the Princeton distance star, failed to qualify. Swede did not finish and was later picked up by an auto in some slight distress, from which he promptly recovered.

YALE OUTRUNS HARVARD

Cambridge, Mass., November 6. —Yale triumphed over Harvard in the annual cross-country run today, 16 to 41. The race was over the Belmont course, a distance of six miles.

CARPENTIER RETURNS TO U.S. AFTER NEW YEAR HOLIDAYS; GOES HOME WITH G.$200,000

French Champion Is Better Cabaret Artist Than Dempsey And Is First Heavyweight To "Socialise" At The Ritz; Europeans Betting 2-1 On Georges

New York, November 11. —Georges Carpentier, the light heavy-weight champion of the world, and heavy-weight champion of Europe, fades from the local landscape Saturday.

He is sailing for that dear France, and will not return to this country until after the first of the year. The chief reason for his departure is the fact that he is expecting an addition to his family.

Last night Georges was stepping about socially in the sacred precincts of the Ritz. Socially, Georges has about twenty pounds and a much longer reach on our own Jack Dempsey. In fact, the Frenchman is about the first heavyweight, or even light heavyweight fighter, to go Ritzing it of whom there is any record.

Tom Sharkey used to move in the best circles of Fourteenth Street. Jess Willard had certain social standing in Pottawattomie, Kan. Mr. J. Arthur Johnson was a leader of the upper crust in the Black-and-Tan section of Chicago, but none of the boys ever got as far as the Ritz.

Philadelphia Jack O'Brien was once a great hand for putting on the swell, as they say in the Roaring Forties. One time Philadelphia Jack came to our town and went to one of the most uppity hotels of those days, and to this hotel came E. Curley, of The American, seeking an interview.

HOTEL GAVE O'BRIEN THE WELL-KNOWN AIR

The chill which befell when E. asked for Philadelphia Jack O'Brien, the fighter, almost froze Eddie's ears, but he survived.

"We have no such person at this place," said the clerk, haughtily. "We would tolerate no such person. This is a swell dump."

"Is that so?" said Mr. Curley, calmly. "Let me see your register."

He ran a finger along the scroll of guests, and finally paused at the name Joseph O'Hagan.

"That's my man," he announced. "That's Philadelphia Jack O'Brien."

"Oh! it is?" said the clerk, "So that's Philadelphia Jack O'Brien? Just a minute, young man, and you can interview Philadelphia Jack O'Brien out yonder on the sidewalk. That's where he'll be."

Sure enough, they gave the genial Jack plenty of ozone. In those days prizefighters had little or no social standing in the hotel world. Nowadays even Soldier Bartfield can put up at the very best if his manager, Mr. McKetrick can keep the clerk from getting a flash at Mr. Bartfield's well known map.

Georges Carpentier has been very social nearly all his life. A careful perusal of the History of Boxing fails to disclose the winning of a heavyweight championship by social prestige alone, but it does not harm.

MORAN AND BRITT "PUT ON THE RITZ."

Jimmy Britt used to wear the thirteen-and-odd, or evening clothes, every night and saunter through the corridors of our prominent hostelries with the ease of a head waiter. Frank Moran was ever a great hand for the society stuff. Just at present we are a little shy of Beau Brummels, cotilion leaders and what-not in the American ring, but you never can tell what minute they will develop.

M. Francois Deschamps, who is Carpentier's discoverer, developer and manager, was rushing about yesterday, volatile and voluble,

CATHOLICS FORM ASSOCIATION HERE

Organisation In Connection With St. Joseph's Church Is Inaugurated

Decision to form the St. Joseph's Catholic Association "with the object of spreading and maintaining the Faith in Shanghai" was made at a meeting of representative Catholics held yesterday at the Kalee Hotel.

All Catholic residents of Shanghai are to be eligible for membership. A committee on constitution and bylaws will be named by Reverend Father J. Croke, S. J., spiritual advisor of the association, and final steps toward organisation will be made the first of the year after this committee makes its report, Father Croke presided at the meeting yesterday.

The movement has been sanctioned by the Bishop of the Kiangnan Diocese, the Very Reverend P. Paris, S. J.

AMERICAN WOMAN'S CLUB

The Literary Department of the American Woman's Club will meet this afternoon at the Royal Asiatic Society Hall at 4:30 o'clock when Mrs. B. A. Edwards and Mrs. Challoner will read papers.

The department is studying Chinese porcelains and Mrs. Edwards will discuss "Famille Verte," "Famille Rose," and "Five Color." There will be specimens of porcelains on exhibition.

Mrs. Challoner's paper will be on the Emperor Chien Lung.

Carpentier Goes With $200,000

(Continued from Page 5)

displaying stateroom tickets for Saturday's steamer. M. Francois says they cost him $600, showing that Georges is going home in style.

He will undoubtedly get a tremendous reception. His victory over Battling Levinsky has convinced the French people of what they have long suspected, that their Georges is the best man in the world. Levinsky would be all smoked up if he realised how important his defeat is in the eyes of the French.

Carpentier has long been a popular figure in his home country. He is the idol of the boulevards. When he goes down the street, crowds follow him. Over here we think Babe Ruth has a big personal followjng, and are duly impressed when thousands wait to see the King of Swat emerge from his dressing room.

GEORGES BIGGER OVER THERE THAN RUTH

Ruth's standing here is nothing to Carpentier's in France. He will probably have a hard time keeping from being mobbed by his admirers when he lands in Paris. He is going home with the first world's title that ever went to France.

Carpentier will be back next Spring. The Dempsey-Carpentier match will probably not be put on until April. Meantime, Dempsey will box Knockout Brennan along about January, and will take on Jess Willard in March.

Jack Curley, who brought Carpentier to America, will be a committee on departure Saturday. Frank Kappel, Mr. Curley's able lieutenant, who is back on Broadway after a long absence with the Carpentier show, and at the races, will also be present.

Curley put Carpentier in the way of making a great deal of money in America. It is estimated that the Frenchman goes home with a couple of hundred thousand dollars, counting his returns from his moving picture work, the road show, and his fight with Levinsky.

It is said that over in Europe the betting people will lay as good as two to one against Dempsey. Already a small syndicate of American sporting men has been organised to send a chunk of money overseas to bet on the American champion at any price.

Long before the fight they will probably hammer the price away down, but the Americans figure they can lay all the way to five to one on Dempsey and still make a big clean-up.

RICE UP AGAIN

Local street unions will conduct a thorough investigation of the cause of the recent jump in the price of rice from $7 to 9.40, the price yesterday, the highest in two months. It was pointed out that unless precaution is now taken, it is feared that another panic such as the one experienced last summer when price went up to $17 will take place.

WATERWORKS DEPARTMENT

NOTICE

The Company wishes to draw the attention of Consumers to the following points:

1. METERS. It is necessary during the winter season to protect the meter from frost not only to avoid damage to this apparatus but also to provide against interruptions of the water supply to the house. This can be done by filling the box containing the meter with straw.
2. STOP-COCKS. Many old installations do not possess stop-cocks, and in case a pipe bursts whether from the water freezing or from any other cause, it is impossible to stop the flooding of the house until the arrival of the Company's employees to cut off the water which may often be delayed if there should be many such accidents at the same time.

   With a stop-cock, all that need be done is to close it in order to stop all passage of water.

   The Company earnestly advises Consumers to see that their house piping is provided immediately with a stop-cock after the meter.
3. PREVENTION OF ACCIDENTS CAUSED BY FROST. DRAIN COCK

   Every good installation should possess at its lowest part a drain-cock which, when opened after the closing of the stop-cock, will carry away all the water contained in the pipes of the house.

   If this operation were put into practice every night, all risk of accident would be avoided.

   This measure will, however, evidently not be efficacious unless the distribution of the piping has been judiciously established so that there does not exist any lodgement where water could remain in spite of the opening of the drain-cock.

   In giving this advice to Consumers, the Company, which does not undertake any private installations, wishes it to be well understood that it assumes no responsibility for any accidents whatever which might happen although the stop-cock should have been closed and the drain cock opened.

Agreeable and Effective

No one likes to take castor oil, calomel, or harsh laxatives, and it is really not necessary. The same beneficial results may be obtained with Dr. Ross' Life Pills with the added advantage of a tonic effect which builds up the system.

This famous remedy thoroughly clears out the digestive tract, opens the bile-ducts, and stimulates the action of the liver. The result is a clear head, added vitality and vigor, good appetite, good digestion. That is why they are called "Life Pills."

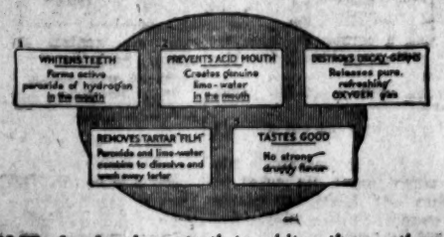
Five Dentifrice Features in One

(Newest ideas of all dentifrices combined in Calox



WHITENS TEETH
Forms active peroxide of hydrogen in the mouth
PREVENTS ACID MOUTH
Creates genuine lime-water in the mouth
DESTROYS DECAY-GERMS
Releases pure, refreshing OXYGEN gas
REMOVES TARTAR FILM
Peroxide and lime-water combine to dissolve and wash away tartar
TASTES GOOD
No strong druggy flavor

SOME of us brush our teeth to whiten them; others to prevent decay and still others to refresh the mouth. Many believe they have acid-mouth or wish to remove the "crust of tartar" which is forming.

Regardless of *why you* brush *your* teeth, study the chart above and decide whether the dentifrice you are now trying *will do* or *is doing* all that you can reasonably expect from a dentifrice.

If it is, continue to use it faithfully. If it is good for only *one* of the duties of a good dentifrice, you had better try McK & R Calox, which combines in *one* dentifrice *most* of the features of *all* modern dentifrices.

If you haven't heard the story of McK & R Calox—how it forms real lime-water in your mouth to prevent acids—how it creates fresh active peroxide on the teeth every time you brush them—how it releases genuine oxygen gas which penetrates into every crevice and "gasses" the dangerous decay-germs into harmlessness, if you don't *know* this story of the victory of modern science, send for "The McK & R Calox Story."

Your dentist will recommend McK & R Calox to you and your druggist has it. Try it next time you need a dentifrice.

The taste is a surprise to most people. It is not the least bit "druggy" which proves that it *is* possible to make a pleasant tasting dentifrice and that a "strong" taste does not prove the efficiency of any paste or powder.

Price 50 cts. per tin.

The Peace Prize To Wilson

ALL the world, we believe, will be gratified by the news that the Nobel Peace Prize has been awarded to President Wilson. Only one other American President has been so honored, and he was Theodore Roosevelt, the prize being given him for his assistance in bringing the Russo-Japanese war to an end.

That President Wilson richly deserves this new honor no one will deny. He worked unremittingly and wisely for peace throughout the Great War, having world peace uppermost in his mind even when he led the United States into that terrible conflict. And afterwards at the Conference of Paris his every energy was devoted to the accomplishment of a real and lasting peace safeguarded for the future by the League of Nations. And in fighting for that Peace and that League he finally broke himself down.

It is fitting, too, that the announcement of this award to him should come at a time when what probably will prove to be his last set message to Congress was being delivered; especially apropos when the contents of that message are considered.

Woodrow Wilson could have uttered no more perfect valediction and sadly stricken physically, America's great president and perhaps greatest idealist, is consistent to the last. He has maintained his high ideals in the face of opposition as bitter as that which confronted Lincoln and Washington and, in the final analysis, has lost not one point that he has advocated. The great war is over. The League of Nations lives.

It is true that the American Congress blocked, temporarily, his League of Nations program. Possibly the congressmen were justified on the ground that practicability should overrule idealism. But Mr. Wilson still may have the satisfaction of knowing that in a general way the world has accepted his ideals and is struggling to whip them into workable shape without shattering the beautiful motives by which they are supported. That this can be done is now an accepted fact. Even now we read that Mr. Harding, the President-elect, is calling a conference of leading Republicans, to discuss the various plans by which America may join the League of Nations.

Only the positive orders of his physician prevented the President from appearing in person before the congressmen when they assembled at Washington for the December term. That is the mettle of the man. But he is ill, more sorely stricken than is generally realised, and it might have been fatal for him to have undertaken such a task. Yet he defied pain and possible personal consequences and bent himself to the task of designing a message to the people of his country that will live in history. Ill in body, his mind remains strong and firm and without fear or favor he has delivered a message to the people who have looked to him for guidance for the last eight years that will go far towards insuring the future welfare of his nation.

Fiume, City Of Youth

The Report Of A London Times Correspondent Of Life Under D'Annunzio

It would be easy, very easy, to write of Fiume in Gilbert and Sullivan strain. Here is the Paradise of Youth, the wildest dreams of boyhood adventure come true. Everybody seems to be about twenty. Some of the more staid men may be twenty-five, and from time to time an elderly person serves to emphasise the immaturity of the overwhelming majority. In strong contrast with the background of listless apathy furnished by the townspeople, whose children have been shipped away, there is among the "Conquistadores" an atmosphere of enthusiasm, of hero-worship, of self-confidence, of joy of life, altogether extraordinary when one stops to think that for more than a year now triumphant youth, bubbling over with vitality, has been cooped up in this narrow space, without work to do or battles to fight, without knowing how its grand adventure will end.

LIKE A PIRATE PLAY

The picturesqueness of the scene makes one blush for the lack of imagination which stage directors show when attempting to present a pirate play. Here are Arditi della Guardia—the finest of shock troops—who fight virtually naked, in nothing but a tin hat and hobnailed boots, a pair of shorts and a leather belt, carrying large clusters of hand grenades and a short, wide-bladed trench knife. In Fiume, however, they sport horizon-blue puttees, gray jerseys and a rather becoming gray tunic and rolled collar, the lapels of which are covered with decorations placed en echelon one above the other. Their headgear is a black chechia, from which on a long cord a huge black tassel dangles between their shoulders. This costume emphasises rather than hides their splendid physique. Besides the Arditi, there are legionaries, grenadiers, machine gunners bersaglieri, cavalrymen, airmen and volunteers, all wearing uniforms blended according to personal taste. Then above the town, at the top of a steep street with staircased payments, is the Palazzo, over which float the flag of Italy and the purple, gold and blue tricolor of Fiume. From here the Illustrissimo-Commandante Gabriele d'Annunzio rules his tabloid state.

But it is not the comic opera setting that counts. It is not the weird costumes which youthful fancy has devised for its own self-glorification, nor the medals and stars that D'Annunzio has plastered all over his legionaries, and which they value above any decoration won in war. The thing that counts is the force that gives cohesion to all this turbulent quicksilver.

It is a great mistake to underrate D'Annunzio. This man is a real force, not only by what he has been in the past, but by what he is, and stands for, today. No one did more to bring Italy into the war, and some of his speeches then, like his Fiume orations now, will endure as long as the Italian language. He fought on land, at sea and in the air. He was severely wounded, and even after the loss of his right eye he remained in the fight. He has always dreamed of a greater Italy, supreme in the Adriatic and extending its influence over the Balkans. He is quite sure that Italy has been robbed of the spoils of victory by the "ingratitude and egotism" of the Allies, and he is just as ready to give his life now for what he believes to be his country's due as he was to die for her in battle. D'Annunzio possesses both constructive imagination and executive ability. He is an untiring worker, and has that divine gift of personal magnetism which attracts the loyalty and devotion of other men. There can be no question of his power to sway the masses. The almost religious admiration in which he is held by the regular Italian forces—officers and men of the army and navy alike—is surpassed only by the fanatical fervor of his own followers.

ABUNDANCE WITH EFFORT

For thirteen months Fiume has lived without working. The wharves are deserted, the railway is overgrown with weeds, the factories are mostly shut—the great Whitehead torpedo shop, which in 1913 employed 1,800 men, now has only some 350 workers. Business in the town is limited to supplying its needs and doing a little trade with Trieste, Venice and parts of Dalmatia. And yet in some totally unexplained fashion the soldiers are paid, the unemployed are given bounties, food is plentiful and, compared with other Italian cities, living is cheap.

The soldiers and sailors get regular Italian army rations, with something added, and extra allowances of wine. Of everything there is an abundance, not excepting money. Fiume is the only city today where one gets real pure wheat bread made from the finest white flour. It tastes like cake. Indeed, the other day D'Annunzio was able to sell 2,000 tons of white flour to the Austrians. Another feature of the Fiuman puzzle, which recalls the miracle of loaves and fishes, is the enormous and never diminishing supply of ammunition—regulation Italian ammunition—in spite of the quantities used up almost every day in sham fights and training. D'Annunzio boasted to me of the fact that in training his storm troops his men went forward with live hand grenades under a machine gun barrage twelve inches above their heads. His casualties, mostly from premature explosions of hand grenades, sometimes total a dozen a day. Of course, it all provides his youthful followers with that excitement which is as essential to them as the air they breathe.

During the early days of his occupation of Fiume D'Annunzio's whole program was summed up in the words "Italia, o Morte!" and every preparation was made for the defenders to sell their lives as dearly as possible and destroy the town rather than surrender it. Fiume was thoroughly mined and everything was made ready to blow up public buildings, highways, water mains, wharves, piers, warehouses, etc., if need should arise. The town is still mined, but D'Annunzio knows now that he will never be called upon to defend it against Italian troops. Indeed, he is entirely surrounded and protected by the Italian army of occupation, which has been thrown forward beyond the Treaty of London line, and now occupies the heights above Buccari, where a small force of Jugo-Slavs is stationed.

A FRIENDLY VISITOR

The day before I saw D'Annunzio he had lunched with General Caviglia, commander in chief of the army of occupation, who had come down from his headquarters at Trieste to see the commandante. D'Annunzio himself told me that they had lain out on the grass together and talked over the developments likely in the near future. D'Annunzio also has the full support of Admiral Millo, commanding the Italian naval forces in Dalmatia, whose headquarters are at Zara.

So D'Annunzio, free from the danger of interference, organised the Corpus Separatum of Fiume, proclaimed its independence as the Reggenza Italiana del Carnaro—this being in his mind but the first step toward formal annexation to Italy—and has written for it a constitution which is not one of the least of the anomalies of this wonderful place.

There may be a tragic side to all this. The great captains of Italian industry believe that the present Italian government is powerless to withstand the demands of Italian labor. To use their manner of speech, "Italy needs a shock." D'Annunzio is to be their agent. Lavishing upon him praise and gold, they urge a march on Rome. They calculate that if once he starts from Fiume there will be nothing to impede his triumphal progress through Italy. No Italian soldier will raise a hand against him, for does he not wear the medal of the mutilated and the Gold Award of Valor—the equivalent of the Victoria Cross? Much of the immediate future of Italy may be bound up in the three words D'Annunzio has inscribed upon his banner: Quis Contra Nos?

Plenty Of Time.

A long-haired man met a little boy, who asked him the time.

"Ten minutes to nine," said the man.

"Well," replied the boy, "at nine o'clock get your hair cut," and he took to his heels and ran, the aggrieved one after him.

Turning a corner the man ran into a policeman, nearly knocking him over.

"What's up?" asked the policeman.

The man very much out of breath, said:

"You see that young urchin running along there? He asked me the time. I told him, 'ten minutes to nine, and he said at nine o'clock get your hair cut!'"

"Well," said the policeman, glancing at his watch, what are you running for? You've got eight minutes yet!"

CURFEW SHALL NOT RING TONIGHT

If we had a curfew bell it would ring in vain for Shanghai dancing people. They won't go home until morning. Their gaiety doth not divide the Sunday from the week. Every night is devoted to these infectious favorites, the "tango de famille," "the fox trot espanol" and no one is afraid to go home in the dark.

The girls know the time to dissemble their fears
And prove that their pluck isn't small;
We find that, as soon as the winter appears,
They wear smiles—and that's about all.

Some brains are not satisfied with doing the little jobs called for during the waking hours but they must also strive to worry out things when the tired body is at rest and the eyes have shut out the darkness. Most of the work done unconsciously during the dead hours of the night is worthless but occasionally some extraordinary intellectual feats have been accomplished.

THE CASE OF R. L. STEVENSON

From his early childhood Robert Louis Stevenson was a dreamer, and his dreams were horrible. Later on he began to dream of journeys, wherein he would see strange towns. In the next stage he could read in his sleep, and the books were such wonderful ones that never afterwards could he be content with ordinary literature. Lastly he began to dream in sequence; and he would continue to dream from the place where he left off the previous night.

It is admitted that Stevenson dreamed the window scene in "Jekyll and Hide" and some of his personal friends felt sure that the central theme of the strange book came to the author while he was asleep.

"His Brownies showed it to him in the night."

THE DIVINE COMEDY

Dante is said to have dreamed "The Divine Comedy" or, at least, the plot and characters and some of the details. The vision appeared to him when he was only nine years old according to some of the stories, while as others tell it, the dream came to another child during a trance which came with a long illness.

Cabanis, the eminent French physician, said that Franklin had told him, during one of his political missions to Paris, that over and over again he had gone to bed puzzled by political events which became quite clear to him in his sleep. What a God-send it would be to Britain's Welsh wizard if he could go to bed and see "Irish political events" becoming "quite clear."

THE MAKING OF SHOT

Many prosaic and useful things have come from dreams, the most notable, perhaps, being the manufacture of shot. The man who became the manufacturer, had been a mechanic and his occupation being that of cutting up strips of lead, out of which his fellow workmen made pellets of shots. The process was slow and expensive. One night this workman had been drinking and after he had gone to bed he dreamed that it was raining. As he watched the rain it turned into lead, and the earth was covered with shot.

He awoke, and filled with his dream, went up into Tower of St. Mary Radcliffe, in Bristol, and, melting some lead, poured it from the top of the tower. When he went to look for the lead, he found that it had taken the form of shot, during its descent through the air.

Thus the shot tower became a fact, and the workman made a fortune out of his dream.

"To sleep, perchance to dream. Aye, there's the rub. For in that sleep....what dreams may come"—
Shakespeare.

But why don't Shanghai people sleep once in a while? If they never give themselves a chance to dream, how can their dreams come true?

Finding By Divination Explained—Why Certain Persons Seem Able To Locate Water And Treasure With Stick Or Metal

BY GARRETT P. SERVISS
(Famous Astronomer and Writer on Scientific Subjects of Popular Interest)

"Will you kindly explain how a small apple tree limb has the power to locate a hidden vein of water, and why the branch will turn in some hands and not in others?—E. M. L., Boston."

Neither a small apple tree limb nor any other inanimate object, or material, has power to do what you describe. The source of the movement is in the person holding the wand. That this is so is sufficiently proved by the well-known fact that waterfinders use a great variety of very different substances, but usually some kind of wood or metal, shaped in different forms, to serve as "divining rods." A crotched twig of witchhazel is, perhaps, the most familiar of these.

Human nature loves mystery, and in this case the word "witch" has a certain value for arousing confidence in the supposed inherent power of the tool used by the diviner. But when the wooden crotch, or metallic ring, or whatever is used for the purpose, turns in the hands of the operator, it is not an "attraction" exercised by the subterranean water that draws it, but an unconscious, or automatic, movement of the holder's muscles.

THE SOURCE IS WITHIN

The source of the motion is in him. This is not to say that the object sought the hidden water, may not have made some impression upon the nervous system of the operator, which impression is the ultimate cause of the movement, but if there be such impression it is the man and not the stick or the metal that receives it, and it is the man and not the water that moves the stick, or the ring.

Philosophically and scientifically the whole interest lies in the answer to the double question: First, whether there is any such impression as we have just mentioned, and, second, granted the existence of the impression, what is its nature or how is it to be accounted for?

Men of scientific standing, such as Professor W. F. Barrett and Sir W. H. Preece in England and Professor Pierre Janet in France, have investigated the proceedings of water-finders, with their various sorts of divining rods, and have affirmed the belief that the phenomena are genuine, though there may be cases of fraud or deception. "Motor automatism" is the phrase used to describe the supposed power of the diviner, and the meaning is fairly expressed by what we have said above.

The unseen water is assumed to affect the motor nervous system of the operator, who must be abnormally sensitive to such impressions. It is further assumed that the recipient of the impressions may have only a subconscious awareness of them, i. e., they set his muscles to work without the intervention of his will.

The reader will see that these assumptions suggest only a very obscure explanation of the phenomena. Most of the investigators of the subject have been associated with the Psychical Research Society and other similar institutions which have to do with phenomena that are very difficult to handle on the plane of ordinary experience and under the laws of material action as known to the science of physics.

THE EXPLANATION

The general nature of the explanations may be understood from these examples: Sir W. H. Preece, an authority on the practical applications of electricity, has suggested that a mechanical vibration is set up by the friction of the underground water which acts upon "the sensitive ventral diaphragm of exceptionally delicately framed persons." Physiologists might smile at this appropriation by the distinguished electrician of the human diaphragm as a telephone membrane to transmit messages from subterranean streams to supersensitive water finders, especially when, at the same time, he "repudiates the theory that any electric force is involved." However, it is commonly in other fields than one's own that prodigies are to be found, or imagined.

The more generalised theory that the water-finders are persons "exceptionally sensitive to hygrometric influences" would be improved by some information as to exactly what "hygrometric influences" mean in this case and how they are felt. We all know that persons are sensitive in varying degrees to dampness, and if water-finders become aware of the presence of underground supplies by means of such indication, it would seem that the impression made upon them ought not to be so far "subconscious" that they cannot give some description of it.

It is curious that the divining rod was applied to the purpose of discovering veins of metal before it was similarly, or at least generally, used as a means of finding water. It is, in some cases, used for discovering buried treasures. The operation in all cases is substantially the same. This simply accentuates the fact of the personal nature of the "power."

Colds And Their Prevention

This is the time of year when colds are most prevalent in Shanghai and it may therefore be useful for you to read the following remarks on "Colds and their prevention" issued by the Chicago School of Sanitary Instruction:

What is a cold? It is an inflammation in some degree of the lining of the nose, throat, larynx and bronchial tubes. It may be slight or severe, extending into the bronchial tubes. There may be cough, hoarseness and fever in severe cases.

What causes a cold? Germs of various kinds. Pneumonia germ, influenza germ and many other germs known to be capable of causing inflammation of the mucous membrane. Measles begins with symptoms of a cold; whooping cough begins with symptoms of a cold; influenza resembles cold at first.

How to contract a cold. The best (or worst) and usual way is as follows: Along in November, close windows and turn on the heat until the room is away above 70° perhaps 80° or 85°. Have on heavy underclothes. When the moisture is well baked out of the air and you have breathed this dry air until the mucous membrane of the air passages are more or less dried put on thin wraps and go out into the cold. Going from a hot room to cold air will give you a chilly feeling, lower your resistance to the action of the germs and you will not have to be very spry to catch a cold.

If you have no germs in your throat or nose, and fail to take cold in the above mentioned way, you can board a car or go to some assembly hall where it is pretty certain two or three can be found sneezing or coughing, who have various samples of germs for gratuitous distribution. When a cough or a sneeze is let loose without a handkerchief over the mouth and nose, everybody for a distance of ten feet receives a fine spray of droplets of mucus, well charged with whatever germs may be in the sneezer's nose, throat and mouth.

If this prescription fails to give you a cold, put on thin stockings and thin shoes, stay out until you are thoroughly chilled, and then step into some water and get your feet wet. If you have no cold after you have met these conditions, it is evident you are living a pretty good life and that your resistance to infection is pretty strong.

A good and safe way to guard against colds is as follows: Keep the house heated to 68° Fahrenheit. Get outside air into the house as best you can. It has the normal amount of moisture in it. Dress lightly in the house and when going out put on heavy top clothes so you will feel as comfortable outdoors as while in the house; good, warm stockings and high shoes when it is dry and cold. If it rains, wear rubbers; if snow and slush are on the ground, wear overshoes.

Keep your teeth and mouth clean, as they breed and harbor dangerous disease germs.

WOMEN MAY BECOME SLEUTHS IN TOKIO

The first suggestion that women be put in the detective service of the Metropolitan Police was made some years ago by Mr. Ota, now Governor of Niigata prefecture, when he held the post of director of the first bureau of the City Police.

The attitude of the police authorities in regard to his proposal has not been decided, because of misgiving about the ability of women as detectives. According to the Yomiuri, the result of the experiment of the Meishinsha detectives, which have in their employ three women detectives, will have an effect in the decision of police authorities in regard to the question of employment of women detectives.

Mr. Shibata, President of the Meishinsha, writing in the Yomiuri, says that his firm decided to employ woman detectives in the belief that Japanese women, as in the case of foreign women, will make satisfactory detectives if properly trained. According to Mr. Shibata, education does not necessarily form an important qualification of the successful woman detective. Although proper direction is necessary for woman detectives to show efficiency, the accurate working of their minds as compared with men detectives, is a great asset to the efficiency of his firm, says the president of the Meishinsha.

LAST FOREIGN CAPTAIN LEAVES N.Y.K. VESSEL

Captain F. E. Cope, for 24 years an employe of the Nippon Yusen Kaisha, said goodby to his numerous friends in Japan and sailed from Kobe for London on the Kamo Maru November 30. Captain Cope will be superintendent of navigation in London for the N.Y.K. The captain came to the Far East in 1897 as chief officer of the then newly constructed Hakata Maru, the second steamer built by Japan's greatest steamship company to be placed on the European service.

During the last 19 years Captain Cope commanded 14 different steamers, commencing with the first Hitachi Maru. He was last on the Kitano Maru, of which he was skipper from April, 1909, to October, 1920, eleven years and a half. During the Russo-Japanese War he was in the transport service, piloting the Jinshin Maru, the Kirin Maru and the Sado Maru. During the Great World War he served on the firm's regular European line.

During his long marine career his ships have been remarkable free from accident, a fact attributable to his keen devotion to his duties.

Captain Cope is the last foreign officer remaining in the service of this firm which had one time a number of foreign commanders. His quiet manner and his courteous way of treating subordinates won the loyalty and friendship of associates and subordinates.

Captain Cope was decorated with the Sixth Order of the Rising Sun by the Japanese Government in appreciation of his transport service. Mrs. Cope and their only son live in London.

ENDS THIRTIETH YEAR OF MISSIONARY WORK

A large circle of friends, Japanese and foreign missionaries, gathered in the auditorium of the Bible Training School at Juso, Osaka, Friday afternoon, November 26, to do honor to one of the pioneer missionaries of the Baptist Church in Japan, Miss Lavinia Mead.

Miss Mead arrived in Japan in 1890 and spent the first 12 years in Sendai in educational and evangelistic work. The next five years were spent in Chofu and Shimonoseki, from which place she was called to become the head of the Bible Training School in Osaka, which position she has filled for 13 years. Under her leadership the fine new plant was secured at Juso, consisting of dormitory and class rooms and well equipped kindergarten. The institution, besides its regular work of training Bible workers, is doing social work for the surrounding community.

Representatives were present from Sendai and Chofu, and a large number of congratulatory telegrams were received from all parts of the country. The Minister of Education sent a congratulatory letter from Tokio, and a representative of the governor of Osaka prefecture expressed official appreciation of Miss Mead's efforts for the Japanese people.

AMERICA IS SHIPPING SHOES THROUGH JAPAN

When the Barber Line freighter Dryden arrives at Yokohama from New York she will have a consignment of American made shoes of the very best quality, valued at $500,000. The big shipment is being sent by the Nemours Trading Corporation for the Japanese, Siberian and Manchurian trade.

Mr. Edward Barrett and Mr. Justice Detweiler, the Nemours representatives for the Far East, arrived at Yokohama Monday afternoon on the Korea Maru and have established headquarters at the Grand Hotel, where they are now receiving buyers and brokers. They stated yesterday that larger shipments of merchandise are to follow soon.

Speaking of the Nemours Trading Corporation, Mr. Detweiler said that it is the pet organisation of the Du Pont family, of Wilmington, Delaware.

JAPAN'S FOREIGN OFFICE SLOW IN GETTING NEWS

If one thinks that he can obtain any early information from the Foreign Office regarding events in foreign countries, he is laboring under a great mistake, says the Yomiuri. In order to substantiate the charge that the Department is more slow in obtaining foreign intelligence than the newspapers, the Tokio paper says that it received the news of the death of the King of Greece only a few days ago.

Whether this state of things is due to the fact that Japan is not ably represented abroad, the Yomiuri cannot tell, but it records the ever-increasing cry among the younger officials of the Department for more competent ministers at least to less important foreign countries.

A high official of the Department of Foreign Affairs, writing in the Yomiuri, confesses to the slowness of foreign information reaching the department. The newpapers obtained earlier information regarding the Shidehara-Morris agreement than the Foreign Department.

According to this official, the delay in the sending of the news of the death of the King of Greece was due to the fact that Japan has at present no diplomatic representative in that country.

As for the situation in Poland, says the official, the Foreign Department is almost entirely ignorant, due to the fact that Japan is not diplomatically represented there. He insists that the Foreign Department should make haste in appointing ministers to both Poland and Greece. He also urges the sending a representative to the Republic of Czecho-Slovakia.

Hankow Market

Hankow, Dec. 1.

Finance and Money Market.—During the week under review bills were scarce and the demand for remittance very small. Even at the decline in rates no bills came out. Taels T.T. on Shanghai.—The market hardened to 97½ with Chinese market at 97.4. Dollars eased to 69.925—70.125 buyers and sellers. Interest rose to 19½ percent and closed at 17½ percent.

Imports.—There is practically nothing of interest to report. The market remains about the same as last reported.

Exports.—The market is about the same as last reported. The rapid fall in silver and rates has to a certain extent demoralised home markets. Tael prices continue weak.

Exchange Market

Messrs. Maitland, Fearon and Brand write as follows in their exchange circular for week ending Wednesday, December 8.

Exchange.—At the beginning of the week the London Silver Market showed a slight recovery and rose from 43 7/8d. to 44 3/4d., it has since declined to 43 3/8d. which is 1/2d. lower than last week's closing price. Advices are distinctly on the weak side and the occasional steadiness which occurs appears to be the result of profit taking, and in no way indicates that silver is being taken off the market, indeed at present it is difficult point to any outlet for stock and production, outside of the American output which we understand is being taken by the U. S. Government under the "Pittman Act."

Our exchange market did not respond to the rise in silver early in the week and with no adequate cover, and a continued demand for gold remittances from commercial and speculative quarters our rate for T.T. on London is down to 4s. 2d. i.e. 2 1/2d. lower than last week's closing quotation. We have had occosional steadiness also caused by profit taking, but on the whole the market has ruled weak and closes distinctly so, with no sellers at better than 4s. 1d. and the banks willing buyers at 4s. 2d. T.T. on London.

Our stocks of silver are reported as follows:

Sycee and Bor Silver Tls. 33,534,000 a decrease of Tls. 500,000.

Chinese and Mexican Dollars $27,330,000 an increase of $470,000.

Estimated value in Taels 53,580,000.

Stock of silver on December 10, 1919. Taels 22,435,000.
